Session notes

It's normal if you feel a little nervous on the day (everyone does as its the first time they have ever done something like this) but once we get into it - the nerves will totally fall away. Literally everyone leaves here hugging us and saying how fun that was!

Try and keep the day of your session free, we may ask to come in a couple hours earlier or later if possible.

If something big comes up and you need to reschedule, please give us plenty of notice :) We can not refund for cancellations, but it's possible to reschedule with a \$50 deposit to secure a new session date.

The Packages

After the session we can retouch the images(that's where all the magic happens) and have them available to view. Adarling print collections are from \$490 and feature items such as retouched images, the stunning Bella album, enlargements and canvas. A full list of packages as well as viewing session times will be available on the day.

The Surprise

Yes, partners tend to love these images (expect a total jaw drop when he sees them) so keep the shoot a secret if you would like the option for a surprise gift!

The Adarling Experience

*When we began photographing Adarling sessions -
we wanted our clients to experience what its like
to look and feel like models.....*

*We wanted them to feel the most attractive they have ever felt,
complete with champagne, make-up on point, a fun photo shoot
and magazine style airbrushing.*

*The results we achieve are absolutely stunning,
with classy, sophisticated images.*

*And the best part of it all,
(other than being a fabulous life experience)
- you get to keep the photos!*

*Every single client has left our studio telling us how fun it was
and how amazing they felt.*

We look forward to 'blowing your mind' at the results!
